

M.O.L.L.E. Ballistic Vest

M.O.L.L.E Ballistic Vest is designed to be worn over the uniform for military use and police special operations where a high level of protection is required.

Provides the highest level of soft body armour protection against penetration from 9mm FMJ and sun-machine gun and .44 magnum hollow point pistols rounds, certified at NIJ Level IIIA at up to 1430 ft/s (436m/s) velocities.

Outer covering manufactured from MilSpec 600 denier coated Nylon. With front and rear hard armour plate pockets that are designed for access from the interior of the vest. With the addition of hard armoured plate the protection level is increased to NIJ level of III or IV against 7.62 x 51 FMJ rifle rounds at 2779ft/s (847m/s) velocities.

Manufactured to customers order. Three months delivery subject to quantity and after receipt of acceptable payment.

Please Note:

All defence and military equipment will require the application and final export license approval.
